

Tuesdays 12h00 – 13h00 CET
(unless specified)

Online seminars via Zoom:
<https://unil.zoom.us/j/93394008116>

2 February 2021

Matthias Lütolf
Laboratory of Stem Cell Bioengineering
EPFL
Engineering next-generation intestinal organoids for modelling host-microbe interactions

2 March 2021
17h00 CET

Jennifer Martiny
Department of Ecology and Evolutionary Biology
University of California Irvine
Capturing ecological and evolutionary responses of soil microbiomes to environmental change

6 April 2021

Harro J. Bouwmeester
Swammerdam Institute for Life Sciences
University of Amsterdam
Belowground chemical communication of plants with other organisms and MiCRop(s)

4 May 2021

Willem de Vos
University of Helsinki & University of Wageningen
The human microbiome: from structure to solutions
