SEMINAR SERIES
2025-2026

Tuesdays 12h00 – 13h00 CE(S)T
(unless specified)

Online seminars via Zoom or MS Teams:
Check individual announcements for link

3 March 2026

Pascale Flury

Department of Environmental Sciences
University of Basel

*Understanding compost microbiomes to develop
microbial solutions against emerging soilborne pathogens*

7 April 2026

Markus Jeschek

Laboratory of Synthetic and Applied Microbiology
Swiss Federal Institute of Technology - EPFL

*High-throughput meets AI - Data-driven engineering
of synthetic microbes*

5 May 2026

Laurent Philippot

National Research Institute for Agriculture, Food
and the Environment - INRAE Bourgogne-Franche Comté

Microbial interactions beneath our feet

2 June 2026

Christine Moissl-Eichinger

Diagnostic and Research Center for Molecular Biomedicine
Medical University of Graz

*The Human Gut Archaeome: An Overlooked Microbial Domain
with Emerging Links to Colorectal Cancer*
